## PROFESSIONAL SUMMARY

---

Full Stack Developer skilled in building scalable web and mobile applications using React.js, Flutter, Node.js, Express.js, and MongoDB. Experienced in developing REST APIs, implementing authentication systems, and designing responsive user interfaces. Strong understanding of full-stack development including frontend, backend, and database integration with focus on clean code and efficient solutions.

## EDUCATION

---

<b>Bachelor of Technology – Electrical and Electronics Engineering</b>	May 2024
N.B.K.R Institute of Science and Technology	CGPA: 8.01 / 10
<b>Higher Secondary Education (12th Grade)</b>	May 2020
Board of Intermediate Education, Andhra Pradesh	CGPA: 9.38 / 10
<b>Secondary School Certificate (10th Grade)</b>	May 2018
Board of Secondary Education, Andhra Pradesh	CGPA: 9.0 / 10

## TECHNICAL SKILLS

---

<b>Programming Languages</b>	JavaScript, TypeScript, Dart
<b>Frontend Technologies</b>	HTML5, CSS3, React.js, Flutter, Bootstrap, Ant Design
<b>Backend Technologies</b>	Node.js, Express.js, REST API Development
<b>Databases</b>	MongoDB, MySQL
<b>Tools &amp; Platforms</b>	Git, GitHub, Firebase, Vercel, VS Code
<b>Payment Integration</b>	Razorpay Payment Gateway

## PROFESSIONAL EXPERIENCE

---

**Full Stack Developer Intern** May 2025 – Present  
Leap Industries

- Developed full-stack web and mobile application features using Flutter, Node.js, Express.js, and MongoDB.
- Built backend REST APIs for authentication, enquiry management, and service handling.
- Designed MongoDB database schemas and implemented CRUD operations.
- Integrated frontend Flutter application with backend APIs for real-time data interaction.
- Contributed to development of Solar.in platform for solar installation services and vendor lead generation.

## PROJECTS

---

### Solar.in – Solar Services Lead Generation Platform

Technologies: Flutter, Node.js, Express.js, MongoDB

- Developed a role-based mobile platform connecting customers with solar installation vendors.
- Implemented features for solar installation services, maintenance support, subsidy information, and financial services.
- Built backend APIs using Node.js and Express.js for handling service enquiries and vendor dashboards.
- Designed MongoDB database structure for storing service requests, vendor data, and product enquiries.
- Integrated additional modules including solar news, educational videos, and weather forecast information.

## **TastyHub – Full Stack E-Commerce Platform (Personal Project)**

Technologies: React.js, Node.js, Express.js, MongoDB, TypeScript, Ant Design, Razorpay

- Built a full-stack food ordering platform with product browsing, cart management, and order processing.
- Developed RESTful APIs for product management, order handling, and user authentication.
- Integrated Razorpay payment gateway for secure online transactions.
- Implemented admin dashboard for managing products, users, and orders.
- Designed responsive UI using React.js and Ant Design components.
- Live Demo: [tasty-hub-e-commerce-website.vercel.app](https://tasty-hub-e-commerce-website.vercel.app)

## **ACHIEVEMENTS & HOBBIES**

---

- Completed Full Stack Development training focusing on MERN stack technologies.
- Developed multiple full-stack web and mobile applications using modern development frameworks.
- Passionate about learning new technologies and building scalable software solutions.
- Hobbies include playing cricket and exploring emerging technologies in software development.
